

For a period of 90 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the California State Director of the Bureau of Land Management.

Notice is hereby given that an opportunity for a public meeting is afforded in connection with the proposed withdrawal. All interested persons who desire a public meeting for the purpose of being heard on the proposed withdrawal must submit a written request to the California State Director within 90 days from the date of publication of this notice. Upon determination by the authorized officer that a public meeting will be held, a notice of the time and place will be published in the **Federal Register** at least 30 days before the scheduled date of the meeting.

The application will be processed in accordance with the regulations set forth in 43 CFR 2300.

For a period of 2 years from the date of publication of this notice in the **Federal Register**, the land will be segregated as specified above unless the application is denied or canceled or the withdrawal is approved prior to that date. The temporary uses which may be permitted during this segregative period are those which are compatible with the use of the land by Forest Service.

Colorado; Proposed Reinstatement of Terminated Oil and Gas Lease

Under the provisions of Public Law 97-451, a petition for reinstatement of oil and gas lease COC49194, Rio Blanco County, Colorado, was timely filed and was accompanied by all required rentals and royalties accruing from February 1, 1995, the date of termination.

No valid lease has been issued affecting the lands. The lessee has agreed to new lease terms for rentals and royalties at rates of \$5 per acre and 16⅔ percent, respectively. The lessee has paid the required \$500 administrative fee for the lease and has reimbursed the Bureau of Land Management for the cost of this **Federal Register** notice.

Having met all the requirements for reinstatement of the lease as set out in Section 31 (d) and (e) of the Mineral

Leasing Act of 1920, as amended, (30 U.S.C. 188 (d) and (e)), the Bureau of Land Management is proposing to reinstate the lease effective February 1, 1995, subject to the original terms and conditions of the lease and the increased rental and royalty rates cited above.

Questions concerning this notice may be directed to Milada Krasilnec of the Colorado State Office (303) 239-3767.

Dated: June 13, 1995.

Proposed Update of Off-Road Vehicle Designation of Routes of Travel on Public Land in Eastern San Diego and Imperial Counties, California

AGENCY: Bureau of Land Management, Interior.

ACTION: Designation of Open, Closed and Limited Routes of Travel.

SUMMARY: Notice is hereby given that the Route of Travel Designations on Public Land in Eastern San Diego and Imperial Counties are being updated in accordance with title 43 Code of Federal Regulations, section 8342.2. These designations are being updated as part of the California Desert Conservation Area Plan and the Eastern San Diego Management Framework Plan. The update will include routes missed on previous designations and redesignation of some existing routes. The environmental assessment, Maps and Proposed Vehicle Route Designation Records for each route may be reviewed Monday through Friday at the following locations beginning June 26, 1995 through September 8, 1995: El Centro Resource Area Office, 1661 South 4th Street, El Centro, CA., 7:45 am-4:30 pm; California Desert District Office, 6221 Box Springs Blvd., Riverside, CA, 7:45 am-4:30 pm; Jay's Maintenance Service, 3550 Foothill Blvd., La Cresenta, CA., 9 am-6 pm; and Fibertech Manufacturing, 10809 Prospect Ave., Santee, CA., 9 am-6 pm (9 am-4 pm Saturdays).

DATES: For Public Meetings and Comments: A 60-day public review period has been established for review of the proposed route designations. Written comments must be filed no later than September 8, 1995. For those who still have questions after reviewing the Environmental Assessment and appropriate maps and Designation Records, four public meetings will be

held to answer specific questions. Each meeting is scheduled 7 to 10 pm. On August 28, 1995 at the El Cajon Community Center 195 E. Douglas Ave., El Cajon, CA, on August 29, 1995 at Jay's Maintenance Service, 3550 Foothill Blvd., La Cresenta, CA., on August 30, 1995 at the California Desert District Office, 6221 Box Springs Blvd., Riverside, CA, and on August 31, 1995 at the El Centro Resource Area Office, 1661 South 4th St., El Centro, CA.

ADDRESSES: Written comments must be filed no later than September 8, 1995, and should be addressed to: Bureau of Land Management, 1661 South 4th Street, El Centro, CA 92243.

FOR ADDITIONAL INFORMATION CONTACT: Robert Bower, Outdoor Recreation Planner, Bureau of Land Management, El Centro Resource Area, 1661 South 4th Street, El Centro, California, 92243.

SUPPLEMENTARY INFORMATION: Since most desert visitors use motorized vehicles to engage in desert activities, a suitable vehicle transportation network is crucial to their needs. Access for desert use and enjoyment needs to be provided while at the same time natural resources are protected. Access outside of motorized vehicle "open" areas is managed through the Vehicle Route Designation Process. This was initiated on adoption of the California Desert Conservation Area Plan and is described in the Motorized Vehicle Access Element. The El Centro Resource Area is updating its vehicle designations for Public Lands in Eastern San Diego County and in Imperial County those Public Lands west of a line along the Chocolate Mountains Aerial Gunnery Range and the east side of the Imperial Sand Dunes.

Finding of No Significant Impact for an Incidental Take Permit for the Incidental Take of the Golden-cheeked Warbler During Construction of Treetops Residential Development in Travis County, Texas

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: The U.S. Fish and Wildlife Service (Service) has prepared an Environmental Assessment/Habitat Conservation Plan for the issuance of a Section 10(a)(1)(B) permit for the incidental take of the Federally endangered golden-cheeked warbler

(*Dendroica chrysoparia*) during the construction and operation of the Treetops residential development in Travis County, Texas.

Proposed Action

The proposed action is the issuance of a permit under Section 10(a)(1)(B) of the Endangered Species Act to authorize the incidental take of the golden-cheeked warbler during construction of the multi-family housing development.

The Applicant (J.P.I. Texas Development, Inc.) plans to construct a multi-family housing development southwest of the Intersection of Capital of Texas Highway (SH360) and Spicewood Springs Road, 7.5 miles N/NE of Austin, Travis County, Texas.

The proposed development will comply with all local, State, and Federal environmental regulations addressing environmental impacts associated with this type of development. A conservation plan has been developed as mitigation for the incidental take of golden-cheeked warblers and its habitat. This plan includes the following features: clearing and construction activities will be conducted outside of the warbler's breeding season; purchasing and dedication (to a conservation entity approved by the U.S. Fish and Wildlife Service) of 71 acres of occupied warbler habitat will be accomplished prior to initiation of development activity; planned undeveloped areas of the property will be maintain in their natural conditions; minimization or avoidance of clearing within the canyon habitats on the development sites, particularly the canyon habitat along Bull Creek that warblers are likely to utilize; force mains will be used to enable the proposed development to place all wastewater lines within road rights-of-way, thereby eliminating the need for gravity-fed mains which would necessitate the disturbance of warbler habitat in adjacent drainages; and follow-up monitoring of golden-cheeked warbler territories onsite will be conducted for one or more seasons as needed, following completion of the project to determine the affects of the development. Results will be reported to the U.S. Fish and Wildlife Service.

Details of the mitigation are provided in the Treetops Environmental Assessment/Habitat Conservation Plan. These conservation plan actions ensure that the criteria established for issuance of an incidental take permits will be fully satisfied.
